Dr. Mason's last similar work published in 1854, reached the enormous sale, in its first year, of over \$6,000 copies, which is, we are confident, the largest sale ever enjoyed, in its first season, by any Church Music Book by a single author. The work now in press will embrace nearly all new matter, cuited with great care from nametous sonres, such, as it is believed, will be of the hignest interest to Choirs.

This intelligence is freely made publie by the London Critic, one of the ablest of the British Literary weeklies, in the following interesting and significant remarks :

About the year 1851, and during the years in which the weir with Russia candout, the public was agitated through the press about the interference of the Prince Consort with foreign politics. The plaintiff in that matter was Laid Pilmerston, who complained that he never could see the wife without the huband being presented. without the busband being presthe wife without the concent dense present. In 1854 that noble lord was charged by the Queen with sending disputches to Foreign Fowers without her Royal sauntion—in other words, with having usurped the office of the crown. In consequence of that, Lord Palmerston was dismissed the Foreign Secretaryship, and this was through the direct present lade. this was through the direct personal influ-ence and solvies of the late Prinos Consort.

No have reason to be lieve that, up to the lime of his death, the Prince Consort raised his voice energetically against the haste with which England is rushing into a wer with the United States—an event which he denounced as antiversiva of her interests, dangerous to the real sources of her power, and certain to be advantageous unity to the despitic powers of Europe.

Intelligence on railphia as the above.

Intelligance so reliable as the above, cannot fail to impress the roader with the conviction that Prince Albert, previous to his death, essayed to stem the hurricane of English war feeling, yainly proposing an arbitration, and only succeeding in the modifications and cour teous language of the English demand, trusted, cannot be lightly regarded.

FOIL BEAUTIFYING THE HAIR, impart ing to it an unequalled gloss and bellifiancy, making its oft and allky in its texture and causing its order readily.
The great celebrity and the increasing demand for this unequalled preparation, convince the proprietor that one trial is only necessary to satisfy a discerning public of its superior qualities over any other preparation at present in use. It cleans such head and scale from dandruf and other cut meous disceres, causes the hair to grow invariantly, and gives it a rich, soft, glossy and flatible appearance, and also where the hair is loosening and thinning, it will give attength and vigor to the roots, and restore the growth to those parts which have become ball, causing it to yield a fresh occuring of hair.
There are hundreds out ledies and gentlemen in New York who have had their hair restored by the use of this Invigorator, when all other preparations had failed. L. M. has in his possession letters innumerable teatifying to the above focts, from persons of the highest respectability. It will effectually prevent the hair from turning gray until the laton period of life; and in cases where the hair has already changed its oolbr, the use of the Invigorator will with certainty restore it to its original hare, giving it a dark, glossy appearance.
